

NEO24^{Test}

The answer you need
when you need it.

CLEAR YOUR DOUBTS

NEO

Neo24 Test by Juno is a non invasive prenatal test, performed with maternal blood, which is completely safe for you and your baby.

Neo24 allows pregnancies with over 10 weeks of gestation to be tested for chromosomal abnormalities. Only a small sample of blood needs to be taken from your arm. We then use the latest sequencing technology to analyse the foetal DNA and detect abnormalities in all 24 chromosomes with great precision and reliability.

Neo24 analyzes all 24 chromosomes for enhanced detection of abnormalities and greater reassurance

- Down Syndrome
- Edwards Syndrome
- Patau Syndrome
- Turner Syndrome
- Klinefelter Syndrome
- XYY Syndrome
- Trisomy X Syndrome

Neo24+ is able to identify abnormalities related to 6 additional rare genetic syndromes:

- DiGeorge Syndrome
- 1p36 Deletion Syndrome
- Angelman Syndrome
- Prader-Willi Syndrome
- Cri-Du-Chat Syndrome
- Wolf-Hirschhorn Syndrome
